

Yunusov Abdulmajid

Python Backend Developer

Tashkent, Uzbekistan [+998903611904](tel:+998903611904) goldendevuz@gmail.com

[🌐 LinkedIn](#) [🔗 Github](#) [🌐 Website](#)

I make and maintain high-performance web applications, sometimes telegram bots and projects of other directions using Python, SQL, Django and DRF. I have done several custom projects for various purposes, as well as implemented some of my own ideas that are still in progress. I enjoy solving complex problems and delivering quality solutions that meet the needs and expectations of the users.

EXPERIENCE

Madad

2025-04-01 - Present

Python Developer
